PROFESSIONAL SUMMARY

Results-driven Data Analyst fresher with hands-on experience in financial data operations, AP analytics, and business intelligence reporting. Proficient in Python, SQL, Excel, and Power BI for data extraction, transformation, and visualization. Demonstrated ability to perform data cleaning, exploratory data analysis (EDA), and build interactive dashboards to support data-driven decision-making. Strong foundation in financial analytics through direct industry experience in Accounts Payable operations using SAP HANA, combined with an MBA specialization in AI & Data Science. Adept at translating complex datasets into actionable business insights across finance and IT domains.

TECHNICAL SKILLS

Programming Languages & Databases: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (Basic), C (Basic), C++ (Basic), Java (Basic), SAP HANA (Basic)

Data Analysis: Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, Statistics, Descriptive Statistics

Business Intelligence: Power BI (DAX, Power Query (M)), Google Looker Studio

Microsoft Excel: Pivot Tables, VLOOKUP, XLOOKUP, Conditional Formatting, Charts

Tools: GitHub, Google Colab, Visual Studio Code (VS Code)

Domain Knowledge: Accounts Payable, Financial Reporting, Data Reconciliation, Business Process Analysis

PROJECTS

Accounts Payable BI Framework | *Power BI, Power Query, DAX, SQL* | [\[GitHub\]](#) 2026

- Designed and developed an **interactive Power BI dashboard** to analyze and visualize Accounts Payable operations data including invoice tracking, vendor payments, and aging analysis.
- Performed **data transformation and modeling** using **Power Query (M)** and **SQL** to clean, reshape, and load structured financial datasets.
- Built **DAX measures** to calculate KPIs including Days Payable Outstanding (DPO), overdue invoice ratios, and vendor-wise payment trends.
- Applied domain knowledge from real finance workflows to ensure business-relevant reporting and operational insights.

E-Commerce Sales Analysis | *Python, Pandas, Matplotlib, Seaborn* | [\[Colab\]](#) 2025

- Performed end-to-end **Exploratory Data Analysis (EDA)** on an e-commerce sales dataset to surface actionable business insights.
- Conducted **data cleaning**: handled missing values, removed duplicates, and standardized data types for analysis readiness.
- Analyzed **regional and category-wise sales performance** using groupby aggregations to identify high-revenue segments.
- Developed **data visualizations (bar charts, pie charts, trend plots)** using Matplotlib and Seaborn to communicate findings to stakeholders, optimizing sales strategies.

CERTIFICATIONS & AWARDS

Deloitte Data Analytics Job Simulation Mar 2026

Forage

Completed data interpretation, forensic analysis, and dashboard tasks simulating real Deloitte analyst workflows.

TATA Data Visualisation: Empowering Business with Effective Insights Mar 2026

Forage

Completed data visualization and business storytelling tasks for senior leadership using real-world datasets.

TATA GenAI Powered Data Analytics Job Simulation Mar 2026

Forage

Applied Generative AI tools to data analytics tasks including insight generation, summarization, and business problem-solving.

Advanced Diploma in Python Programming (ADPP) CSC, Chennai, India	Dec 2021
Covered C Language, OOP using C++, and Python programming fundamentals and applications.	
Certificate of Merit – SUN JAVA CSC, Chennai, India	Feb 2022
Best Outgoing Student Award Jaya College of Arts and Science, Chennai, India	2021

EXPERIENCE

Financial Associate RR Donnelley, Chennai, India	Feb 2025 – Jul 2025
- Processed and analyzed Accounts Payable (AP) data using SAP HANA and Excel, ensuring accurate invoice verification and vendor payment processing. - Performed 3-way matching (Purchase Order, Goods Receipt, Invoice) to validate transactions and maintain end-to-end data accuracy across financial records. - Utilized Excel (Pivot Tables, VLOOKUP) to analyze AP data and generate AP aging reports for tracking outstanding vendor payments. - Identified and resolved data discrepancies in transactional records by analyzing invoice and payment data, improving processing accuracy. - Supported month-end financial close by preparing reconciliations, financial summaries, and exception reports using SAP and Excel. - Collaborated with cross-functional teams to streamline AP workflows and ensure compliance with financial controls and audit requirements.	

EDUCATION

SRM University, Chennai Master of Business Administration (MBA) – Artificial Intelligence & Data Science	2025 – 2027 (Expected) Pursuing
Jaya College of Arts and Science, Chennai Bachelor of Commerce (B.Com – General)	2021 – 2024 73%
